

Disaster Assistance for Farmers

Hurricanes Irma and María caused many U.S. Virgin Island and Puerto Rican producers to suffer livestock and crop losses, and structural damages to their operations. The United States Department of Agriculture (USDA) is committed to helping eligible producers recuperate after these natural disasters. The United States Department of Agriculture (USDA) is committed to helping eligible producers recuperate after these natural disasters.

IMPORTANT: NRCS - USDA has created a direct hotline to offer assistance to producers that have been affected by hurricane María: Disaster assistance direct line: [\(787\) 303-0341](tel:7873030341)

Which USDA disaster assistance programs are available?

The USDA provides various services and programs for disaster-affected producers. The programs listed below are managed by different federal agencies. Each program has different requirements for eligibility. Contact the agency that manages the program that interests you to verify whether you are eligible for assistance. The contact information for your municipality is located in the following pages.

The USDA Caribbean Climate Hub is located in San Juan, Puerto Rico and seeks to develop and provide scientific information, practical tools and greater capacity to the agricultural and forestry community of Puerto and the U.S. Virgin Islands to build resilience to climate change. We support the revival of agriculture and forestry in Puerto Rico and the U.S. Virgin Islands after Hurricanes Irma and Maria. For more information visit:
